Synopsis: re-tells the tragic real story about two young art students who fell in love only to be slapped with the sobering open-palm of an existentialist universe with which we all inhabit--some more than others.

This is the company's latest experimental multi-media endeavor by avant-garde performance artist duo RR Anderson & Ms. Darcy and was made possible by a liberal arts patron grant from the Christian Pacific Aleutian Puppet Guild Foundation, donations from local Tacoma artists and viewers like you.

"together we can make a difference." ~ RR A
