When considering a ball for heavier oil, you need to look for strong coverstocks and weight blocks, or cores, that are ready to cut through oil and help you get not only to the pocket but through the pins. The new IQ™ is that ball!

With an amped up new PFT™ (Progressive Friction Technology) coverstock and dynamic Centripetal™ core, the IQ is sure to turn some heads. The Centripetal core's symmetrical shape provides countless drilling options. This fast-revving core produces 6" or more of flare and is designed to benefit players of all skill levels.

Prepped with a textured 3000-grit Abralon® finish, the IQ's PFT coverstock emphasizes the break point angle as it grips the dry boards like no other. You may know that coverstocks come in a variety of levels of aggressiveness, and this one is sure to be an industry leader when it comes to performance.

Put it all together and you have another masterpiece from Storm. The new IQ is THE SMART CHOICE!
